Welcome you to Egerton University.

This handbook contains general information on academic programmes, policies, student services and available facilities at Egerton University. You will find a lot of information in this handbook that will enable you adjust to the campus environment with ease. Egerton University Senate reserves the right to interpret and change any section of this handbook from time to time as it may deem necessary. The student shall bear the responsibility for misinterpretation of any information herein. Note that the primary purpose of your admission to the university is the pursuit and achievement of your academic goals. One of the impacts of Egerton University evolution has been dramatic growth in student enrolment, diversification of student intake and academic programmes. Designated as a centre of excellence in teaching and research in the region, Egerton University provides an enabling environment for academic and other related activities to flourish. While the main enterprise for students is to excel academically, students are also provided with opportunity to undergo other significant and critical developmental and growth processes which require a campus environment that fosters and enhances all these processes. We aim at developing the ‘whole person’ by recognizing each student’s unique talent and by providing them with ample opportunities to do their best.

Peer Counseling

Peer counseling is carried out by a group of students recruited and trained by Egerton University staff to counsel their peers. They are trained and are knowledgeable about; Family Life Education, Counseling Skills, Substance Abuse, HIV/Aids and Sexually Transmitted Infections (STIs). As a result of their training and experience, peer counselors are often more highly sensitized to the needs of those around them and can respond more appropriately to those needs. Peer counselors are trained to counsel on a wide range of issues including; relationship concerns, sexual harassment, rapes, unplanned pregnancies, stress, financial and time management, roommate problems, academic problems, religious issues, alcohol and drug abuse among others. Peer counselors can also help students to adjust to the new university environment. Peer counselors are always near you in the residential areas, lecture halls, mess/cafeteria places and all around the campus. You can identify them by a special tag that they wear all the time.

Alcohol, Drug and Substance Abuse

Research has shown that alcohol and marijuana (*cannabis sativa*) are the prevalent drugs mostly abused by university students in many countries. Certain factors such as peer pressure, easy availability of the substances, parental and societal influences, emptiness in life, and media pressure, among many play a leading role in the use or abuse of alcohol and drugs. These substances have far reaching adverse physical, social, economic and psychological effects. Using these substances as a way of escape or dealing with everyday problems in life is a maladaptive way of responding to the problems and pressure of growing up. When you are under some stress and feel tempted to turn to drinking or taking drugs, please go to the counseling services office or talk to a peer counselor. There are also caring staff who will provide you with the necessary help. They will treat you with the utmost confidentiality. As an educational institution, Egerton University is committed to providing an environment that enhances and supports the intellectual growth of all its students. The university community has the collective responsibility to ensure that this environment is conducive to a healthy intellectual growth. Possession, sale and consumption of controlled substances is prohibited both on campus and off campus.

Note: If caught in possession of illegal drugs by the state security agents or university officers, will be prosecuted in a court of law just like any Kenyan caught breaking the law and the university will not intervene in any way. Moreover, Disciplinary action shall be taken against any student who may disturb others while under the influence of drugs.

CHAPLAINCY SECTION

Egerton University has a multi-faith Chaplaincy, a section which provides environment for free interaction of mainly four religious groups i.e., Protestant (Egerton University Christian Union), Catholic Students Association (CSA), Egerton University Seventh Day Adventist (EUSDA) and Egerton Muslim Association (EMSA). The multi-faith chaplaincy is there for students and staff to explore spirituality, faith, religion, value, meaning and ethics. This multi-faith chaplaincy exists within the academic community to nurture faith, spirituality and social responsibility and to provide pastoral presence, especially for students. It is indeed a referral center for students and staff who wish to explore their own spiritual needs and spiritual counseling services. The Chaplaincy also serves as a link between the University administration, and the faith community. The University Chaplain offers pastoral care and counseling as well as playing priestly roles.

This arrangement is replicated in all the University campuses. The University Chaplain coordinates these groups through a multi-faith committee which meets twice a semester. In the committee, there is a religious congress who links the multi-faith chaplaincy with Egerton University Students Association (EUSA). The religious congress is elected on a rotational basis among the religious groups and the campuses. Leaders of these religious groups are usually trained as Chaplaincy fellows once a year. For their religious activities, Muslim students usually consult a senior Muslim staff member on campus for spiritual guidance.

In Njoro Campus, there is one venue for Christian Union in the Bs Lecture halls, where members meet for Sunday services. Catholic Students Association students attend their services at the St. Augustine Chapel just outside the main gate. EUSDA members meet in Bs Lecture halls for their Sabbath and Muslim students' worship in the at Ahero Mosque which is located at the outskirts of the university for the Friday prayers. Additionally, some students and especially those who reside off campus attend religious services in their respective churches near the university.

Nakuru City Campus College religious groups are assigned places of worship (lecture halls), through the office of the Dean of Students.

NOTE: No individual church is allowed to carry out its activities within the university premises.

The University has one chaplain who serves all campuses. The Chaplain can be reached through the Dean of Students office.

Death and Funeral of a Student

This is a situation where a student may die during the academic session. Death may either occur on campus or outside campus. If a student dies on during the semester session, the university provides transport for a limited number of student colleagues to his/her final resting place. Before any arrangement is made, evident information confirming the death must be provided to the Dean of Students who will in turn officially inform the Vice-Chancellor and the university community of the student's death. Students wishing to attend the funeral must liaise with the Dean of Students office for transport arrangement.

Being Mindful of others

Students are encouraged to be each other's keepers by referring needy cases to the office of Dean of Students. In case the affected students are not ready to come forward please inform the Dean of Students in confidence.

GAMES AND SPORTS SECTION

The Institute's Activities

"Transforming Lives through Quality"

The Institute offers academic programmes in Gender and Development Studies. It also provides personalized assistance and referral services primarily to women students. A wide range of programmes offered encourages academic achievement, leadership development and consideration of current issues of importance that affect both men and women in our academic community which include: unplanned pregnancies, sexually transmitted infections (STIS, HIV/AIDS), stress due to academic, financial and relationship problems, rape, and sexual harassment, among others.

Personal Safety and Gender Issues

Physical assault caused by intoxicated individuals under the influence of alcohol or drugs may also occur in the context of any relationship. If you or your friend is physically assaulted or have fears for their physical safety or that of others, report the matter to the Security or Dean of Students offices. To avoid being victims of assault, students are advised to take the following precautions: Do not intoxicate yourself with alcohol and drugs because they can impair your judgment, stay alert and be conscious of the people around you all the time, avoid the company of strangers, avoid secluded places, meet in public places until you get to know someone, set clear sexual limits; Say "NO" and mean it; don't open your door if you don't know who is knocking; keep your cubicles and rooms locked at ALL times.

Sexual Harassment

Deliberately and persistently annoying another, and or making unwelcome sexual advances, requests for sexual contact and other verbal or physical conduct of a sexual nature constitutes sexual harassment. Egerton University is committed to creating and maintaining an educational environment free of disrespectful, behaviour or communication that interferes with students' activities or performance. Any student who is subjected to sexual harassment by a member of teaching staff or administrative staff should report the incident immediately to the Dean of Students or any other relevant authority in the university.

Any student who knowingly files a false claim of sexual harassment will be subjected to a disciplinary action. Any student who rapes or tries to rape another shall be expelled from the university and handed over to the police for prosecution in a court of law in accordance with the laws of Kenya. It is important to note that Egerton University students are encouraged to obtain copies of the laws of Kenya, read and understand their rights and obligations so as not to find themselves on the wrong side of the law since that will interfere with their studies.

Pregnancy and Child Care

Female students are discouraged from becoming pregnant during their studies as unplanned pregnancies tend to disrupt one's academic performance. In case a student becomes pregnant, and in order to protect the health of the mother and child, it is recommended that she vacates university halls of residence three months before delivery and can re-apply for accommodation three months after delivery. Affected students are encouraged to seek counseling services at the office of the Dean of Students.

HIV/AIDS and STDs Policy

We are living in an era where HIV and sexually transmitted infections (STIs) and other infections are real. Students are encouraged not to put themselves in compromising situations that can make them vulnerable to such infections. In addition, students are encouraged to be good managers of their finances and to avoid spending money on things such as alcohol, drugs and other substances that might result in casual sex with multiple partners. The consequences of irresponsible sex include: Sexually transmitted diseases/infections, exposure to HIV and

subsequent development of Aids and unwanted pregnancies. It is known that many students are often reluctant to seek treatment immediately they develop symptoms of STIs, probably due to stigma or presumed embarrassment. Some may even continue to have un-protected sex with increased potential of transmission to other unsuspecting students. First Year students should attend all orientation sessions arranged for them by the university. This and many more problems that could face them in campus are openly discussed and crucial lifelong skills are shared. While on campus, new students should attend various seminars where issues are often discussed e.g., information and education sessions conducted by Peer Counselors. Students should not indulge in risky and careless sexual behaviour. Students who cannot abstain from sex or who are unable or cannot maintain a faithful monogamous relationship should always use condoms.

Students are advised to meet with unit- in-charge to discuss special meal plans and diet requirements or for consultation in case of problems or complaints.

The unit also provides prepaid services. Consult Chief Catering Officer for procedure.

ACCOMMODATION DEPARTMENT

The university's halls of residence in various campuses cater for both female and male students. Staff assigned in each hall of residence are responsible for keeping them tidy and functional to ensure that students are comfortable. Students are also expected to keep their rooms clean and tidy. Accommodation is mainly for diploma, undergraduate and international

students. Halls of residence are clustered into blocks with each block assigned to a Custodian and a Halls Officer for ease of management. Consult your custodian and Halls Officer for assistance.

Business Premises

Business premises within Egerton University were initially operated by private investors but it

was decided that students' clubs and associations be allocated these premises so that they can be nurtured in entrepreneurial skills. This would enable them to learn early enough and cope with entrepreneurial challenges when they complete their studies. The Egerton university students' business engagement policy guides in the allocation of business premises to the students and ensures that accepted procedures are followed without discrimination. It sets out the terms and conditions which must be met before allocation; including application procedures, evaluation criteria, lease agreement, monitoring and evaluation strategy, termination and conflict resolution processes. The aim of providing business opportunities to students is to enable them to achieve the following:

- i. Entrepreneurial skills which will prepare them for competitive business world after graduation.
- ii. Application of theory into practice
- iii. Contribute towards Egerton University student's work-study and bursary programme to cater for educational expenses and support their needy colleagues while at the university.

The business premises will ONLY be awarded to student's professional Clubs and Associations registered with the Dean of students' office and will have undergone successful evaluation as outlined in the policy. Exceptional groups through projects can be allocated premises by writing a thorough proposal, which will be subjected to evaluation prior to approval. A notice for applications to lease vacant premises will be circulated for Clubs and Associations interested to submit tenders. Business premises will not be allocated to individual students. Interested applicants will be required to understand the policy in detail.
